

ESSR and Slovenian Association of Radiology

MSK Outreach Programme

US Approach to Peripheral Joints:
Diagnostic and Minimally Invasive
Procedures

19th – 20th April 2024

Venue: Hotel Union, Miklošičeva 1,
1000 Ljubljana

ESSR Local organisers: Vladka Salapura, Karlo Pintarič, Žiga Snoj

08.00-08.55 REGISTRATION

08.55 WELCOME INTRODUCTION

09.00-10.30 Shoulder

1. Functional anatomy of shoulder girdle
V. Salapura
2. Rotator cuff pathology
C. Messina
3. Glenohumeral instability
M. Ruprecht
4. US approach for shoulder interventions:
glenohumeral and acromioclavicular joint
V. Salapura
5. US approach for shoulder interventions: bursae,
suprascapular nerve, calcific tendinopathies
D. Albano

10.30-11.00 Coffee break

11.00-12.00 Elbow

1. Functional anatomy of elbow
K. Pintarič
2. Medial and lateral epicondylitis
C. Messina
3. US approach for elbow intervention: tendinopathy
D. Albano
4. US approach for elbow interventions: joint, bursae,
distal biceps tendinopathy
K. Pintarič

12.00-12.45 Wrist

1. Functional anatomy of wrist: dorsal and volar side
C. Messina
2. Carpal tunnel syndrome
C. Messina
3. US approach to wrist interventions: Carpal tunnel syndrome
D. Albano

12.45-13.30 Neuropathic pain treatment

1. What to consider in MSK therapeutic injections
Ž. Snoj
2. Diagnostics of pain/neuropathic pain
S. Jengojan
3. Minimally invasive image guided therapeutic interventions in neuropathic pain
S. Jengojan
4. Pelvic neuropathies and therapeutic injections
Ž. Snoj

13.30-14.30 Lunch

Workshop day 1:

14.30-17.30 US practical course on shoulder and elbow joint
with imaging of US approaches to minimally invasive procedures
8 - 10 participants per US machine (max)

18.00 Welcome reception

09.00-10.30 Knee

1. Functional anatomy of knee
G. Ivanac
2. Pathology of tendons and ligaments
G. Ivanac
3. Pathology of menisci and cartilage
I. Borić
4. US approach for knee interventions: joint, Baker cyst, tendinopathy
K. Pintarič

10.30-11.00 Coffee break

11.00-12.00 Hip

1. Functional anatomy of hip joint
V. Salapura
2. Pathology of tendons and ligaments
Ž. Snoj
3. Pathology of labrum
I. Borić
4. US approach for hip interventions:
trochanetric pain syndrom, iliopectineal bursae
S. Jengojan

12.00-13.00 Ankle and Foot

1. Functional anatomy of ankle and foot
G. Ivanac
2. Pathology of tendons and ligaments: medial, lateral tendons ankle
I. Borić
3. Pathology of tarsal tunnel
I. Borić

4. US approach for ankle and foot interventions:
Achilles tendon, plantar fascia, Morton neurinoma
S. Jengojan

13.00-14.00 Lunch

Workshop day 2:

14.00-17.00 US practical course on knee and hip joint with imaging of US approaches to minimally invasive procedures
10 participants per US machine (max)

17.00 Closure

Registration Fee:

Before 31st of January 2024 150 € (VAT included)

After 1st of February 2024 200 € (VAT included)

Coffee breaks, lunches and welcome reception included.

Cancellations after 1st of March 2024 will not be refunded.

You can register on the website: ljubljana24.radiologija.si

Registration will be open after 1st of November 2023
